## Testimonial

Claire Farmer's teaching skills helped me to complete the AAT accounting qualification. She is a Chartered Accountant, a qualified teacher and a science graduate.

In my opinion Claire has extremely strong numerical and analytical skills - essential for subjects like Maths, Sciences and accountancy.

I find Claire good humoured, ethical and well organised. Her teaching style is patient and supportive - but always focused on outcomes.

I truly believe that anyone, of any age and at any level would benefit from Claire's teaching methods.

Signed
